EDUCATION

Pulchowk Campus, Tribhuvan University

Bachelor in Electronics, Communication and Information Engineering

Pulchowk, Lalitpur

2022 – 2026

Trinity International College

High School, Science

Dillibazar, Kathmandu

2019 – 2021

SKILLS SUMMARY

Languages: Python

Frameworks: Tensorflow

Developer Tools: Git, Github

Libraries: Pytorch, OpenCV, Pandas, NumPy

PUBLICATIONS

An Approximation of the Unit Step Function: A New Method

ACHIEVEMENTS/EXPERIENCE

National Mathematical Olympiad 2020

Position: Finalist

Team selection test(TST)

- Highest marks from the Kathmandu in District-Level Competition
- Reached final round of National Mathematics Olympiad

Pulchowk Campus: Old Mobile Reuse Competition

Position: The Best Idea

- Repurposed old but functional mobile phones as live game servers for hosting multiplayer games.
- **Tech Stack:** Python, Android phone

PROJECTS

- **Neural Network from scratch:** Developed an neural networks that recognizes the hand-written digits, written completely in C++.
- **World Model Architecture for Autonomous Driving in Simulated Environments:** A latent space approach to autonomous driving training.

CERTIFICATIONS

- **Deep Neural Networks**
- **Samsung Innovation Campus: Big Data**
